

KAMALESH R

Software Developer | AI & Full Stack Enthusiast

kamaleshanu26@gmail.com +91 9943030594 [LinkedIn](#) [Github](#) [Portfolio](#)

Professional Summary

Information Technology graduate with hands-on experience in full-stack web development, artificial intelligence, cybersecurity fundamentals, and data analytics. Skilled in Python, Flask, React, SQL, MongoDB, PostgreSQL, Docker, and Machine Learning. Experienced in developing AI-powered applications, analytics platforms, REST APIs, and database-driven solutions through internships and real-world projects. Passionate about building scalable software solutions and leveraging emerging technologies to solve practical problems.

Technical Skills

- **Programming Languages:** Python, JavaScript, Java, C, C++
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Responsive Web Design
- **Backend:** Flask, REST API Development
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Data & AI:** Power BI, Machine Learning, Pandas, NumPy, Natural Language Processing
- **Tools & Platforms:** Git, GitHub, Linux, Docker

Projects

ORACLE AI – AI-Powered Trend Intelligence Platform

Tech Stack: Python, Flask, React, PostgreSQL, MongoDB, Docker, Google Gemini API

- Designed and developed a full-stack AI platform that collects and analyzes data from RSS feeds, Hacker News, and GitHub Trends.
- Built automated data pipelines, historical analytics architecture, and scheduler-based data collection workflows.
- Implemented keyword extraction, topic clustering, emerging topic detection, trend forecasting, and AI-generated intelligence reports.
- Developed interactive dashboards featuring trend analytics, topic forecasts, AI insights, and conversational trend exploration.
- Designed scalable REST APIs and integrated PostgreSQL and MongoDB for continuous trend monitoring.

Student ERP System

Tech Stack: Python, Flask, MySQL, HTML, CSS, JavaScript

- Developed a full-stack ERP system for managing student records, attendance, marks, and reports.
- Implemented secure CRUD operations, role-based workflows, dashboard analytics, and reporting features.
- Designed responsive user interfaces and integrated database-driven operations.

PANDA – Intelligent Automation Framework

Tech Stack: Python, Google Gemini API, Automation Tools

- Developing an intelligent automation framework focused on AI-assisted workflows and task automation.
- Designing modular architecture for future integration of automation agents and AI services.

ABLEMIND – AI-Powered Learning Platform

Tech Stack: HTML, CSS, JavaScript, MySQL, OpenAI API, Node.js, Express.js

- Developed an accessible online learning platform for differently-abled individuals.
- Integrated AI chatbot support and voice-assisted accessibility features.
- Focused on inclusive design principles and personalized learning experiences.

Professional Experience

Full Stack Web Development Intern

EduTantr | Jul 2025 – Sep 2025

- Contributed to the design, development, and maintenance of full-stack web applications.
- Developed responsive user interfaces using modern frontend technologies and web development best practices.
- Assisted in implementing backend functionality, database integration, and application workflows.
- Performed debugging, testing, and troubleshooting to improve application reliability and performance.
- Gained hands-on experience with full-stack development, Git version control, database management, and SDLC practices.

Cyber Security Intern

Skolar | Feb 2024 – Apr 2024

- Learned and applied cybersecurity principles, security best practices, and cyber threat awareness techniques.
- Performed vulnerability assessment and security analysis activities.
- Gained practical exposure to network security, information security, risk assessment, and ethical hacking methodologies.
- Worked on hands-on cybersecurity exercises and security-focused training assignments.
- Strengthened analytical thinking, incident identification, and problem-solving skills.

Education

Bachelor of Science (B.Sc.) – Information Technology

Sri Ramakrishna College of Arts & Science, Coimbatore

CGPA: 7.71

Graduation: 2026

Certifications

- MongoDB Basics – MongoDB University
- Linux Foundation LFS101 – Introduction to Linux
- Python for Data Science – Infosys Springboard
- Prompt Engineering – Infosys Springboard
- Oracle Cloud Infrastructure 2023 Certified Foundations Associate – Oracle University
- CS50 – Introduction to Computer Science (In Progress)

Achievements

- Built ORACLE AI, an AI-powered trend intelligence and forecasting platform using Flask, React, PostgreSQL, MongoDB, Docker, and Google Gemini AI.
- Successfully developed and deployed a full-stack Student ERP System with attendance, marks, reporting, and analytics modules.
- Secured First Place in Quiz Competition at ZEROSIA-2K24 conducted by Bishop Ambrose College.
- Participated in a 10-Hour Hackathon conducted by CTPCR at Sri Ramakrishna College of Arts & Science.
